C. J. Deachman

1957

January 31

Francis B. McSwiney, Brig. General, NHNG
The Adjutant General
State Military Reservation
Concord, New Hampshire

Dear Sir:

In response to your letter of January 15, 1957, our office has made a careful examination of New Hampshire statutes relative to the appropriation of funds for payment of World War II and Korean bonuses. There appears to be no specific provisions relative to the administrative cost regarding such bonus payments.

On the basis of your letter it is assumed that the microfilming of your records is necessary in the best interest of the State and it would, therefore, appear to be an administrative expense to be treated in accordance with the practice followed by your office in the past in justifying administrative costs relative to bonus payments.

Sincerely yours,

William J. Deachman
Assistant Attorney General
